## **UNDER THE SEA SURFACE, THE GREAT TREASURES ARE WAITING TO BE FOUND IN THE NEW SLOT BY MASCOT GAMING – DEEPSEA RICHES.**

Amidst the dark waters at the very bottom of the sea, lost gems and shipwreck treasures await you in Mascot Gaming's new colorful game - Deepsea Riches. Put your diving suit on and find your reward on the seabed!

Mascot Gaming is famous for the 3D games that stand out with their gorgeous graphics. The developer again surprises its players, now with the colorful adventure to the bottom of the sea. Deepsea Riches offers the players both a thrilling gaming experience and exciting wins.

Deepsea Riches is a game of medium volatility with 20 pay ways, Wild and Scatter Symbols, and with two of Mascot Gaming's most popular features: Rockfall and the legendary Risk & Buy.

To suit the underwater aesthetic the developer implements the Rockfall feature in reverse. Instead of the symbols falling from the top, they float up from the bottom of the sea. What a stunning take on the well-known feature!

Moreover, this time Rockfall provides bigger multipliers: up to x10 in the main game and up to x25 in the FreeSpin series.

The Risk & Buy feature allows the player to either risk their winnings for a series of FreeSpins or to buy it for a specific cost. The Risk & Buy feature is offered after each spin in the main game, regardless of whether or not there is a win.

"With Deepsea Riches we decided not to stress our players with complicated gameplay but bet on the game's visual elements. Our graphic designers did a fantastic job! We are sure the game will stand out from a similar range of games."
