SEARCHING FOR GOLD WAS NEVER AS FUN AS IT IS IN A NEW SLOT GAME BY MASCOT GAMING – GREEDY GREENSKINS!

*Greedy Greenskins invite you to join goblins in their quest for gold and fortune!
Who knows what rewards you'll uncover along the way?*

With stunning, vibrant graphics, legendary music, generous bonus features and a chance to win big, Mascot Gaming takes your slot gaming experience up a notch!

Game after game, the developer proves their ability to surprise their players with an exciting mix of features, design, and themes, every time delivering something extraordinary.

The slot game includes a set of exciting features. Rockways, the flagman feature of Greedy Greenskins, can produce up to 6 symbols per reel each spin. It means that every spin can produce up to 46,656 ways to win. There are up to 4 Blocker Symbols on each reel at the beginning of each spin, and they don't participate in the combination.

Meanwhile, the Rockfall feature is triggered by any win. All winning symbols will be removed from the screen and replaced with new ones. Moreover, the winning multiplier increases with each new Rockfall. The Rockfall multipliers are up to x5.

Another great bonus feature is the Free Spins feature. Free Spins play automatically at the bet at which they were won. They can be won in the main game with a combination of Scatter Symbols.

To calculate the Rockfall multipliers for Free Spins, the player will need to multiply the current main game multiplier at which Free Spins were won by the basic set of multipliers for Free Spins. It means the total multiplier can be up to x25.

Last but not least, the legendary Risk & Buy feature that monumented Mascot Gaming in the gaming industry. As always, the feature is offered to the player in the main game after each spin, regardless of whether the player wins or not. It offers the player either to risk their current win and immediately go to the Free Spins feature, or buy the Free Spins at a specific cost.

Margarita Malysheva,
