**IMAGINE YOURSELF AS A NATURE EXPLORER
TRAVELING TRAVELING THROUGH CANYONS
THROUGH CANYONS AND PRAIRIES
IN THE NEW SLOT GAME BY MASCOT GAMING –
WILDLIFE RICHES.**

Mascot Gaming is famous for its exciting games that might leave you on edge, but Wildlife Riches is different. With soothing music and pleasant natural colors, the developer has created a calming atmosphere of wild nature within the slot game and balanced it out with vivid graphics. Wildlife Riches is a rare example of a compelling and relaxing slot game.

This slot game is rich with exciting features in both the main and bonus games.

The Wild Feature will be activated in the main game when a Wild Symbol appears on the screen. It moves across the reel from left to right, moving 1 reel with each spin. When it reaches reel 5, a Wild disappears from the screen with the next spin.

With Mascot's legendary Risk and Buy feature, players can risk their winnings for the bonus game or buy a Bonus Game for a specific cost. The cost is always different, and it's up to the player to decide whether it's worth the wait or the risk.

However, instead of waiting for the bonus game combination, the developer introduces the bonus scale to the player. The Bonus Scale fills up by 1 step with each non-winning spin and empties with any win. The Bonus Game will begin when the entire scale is filled.

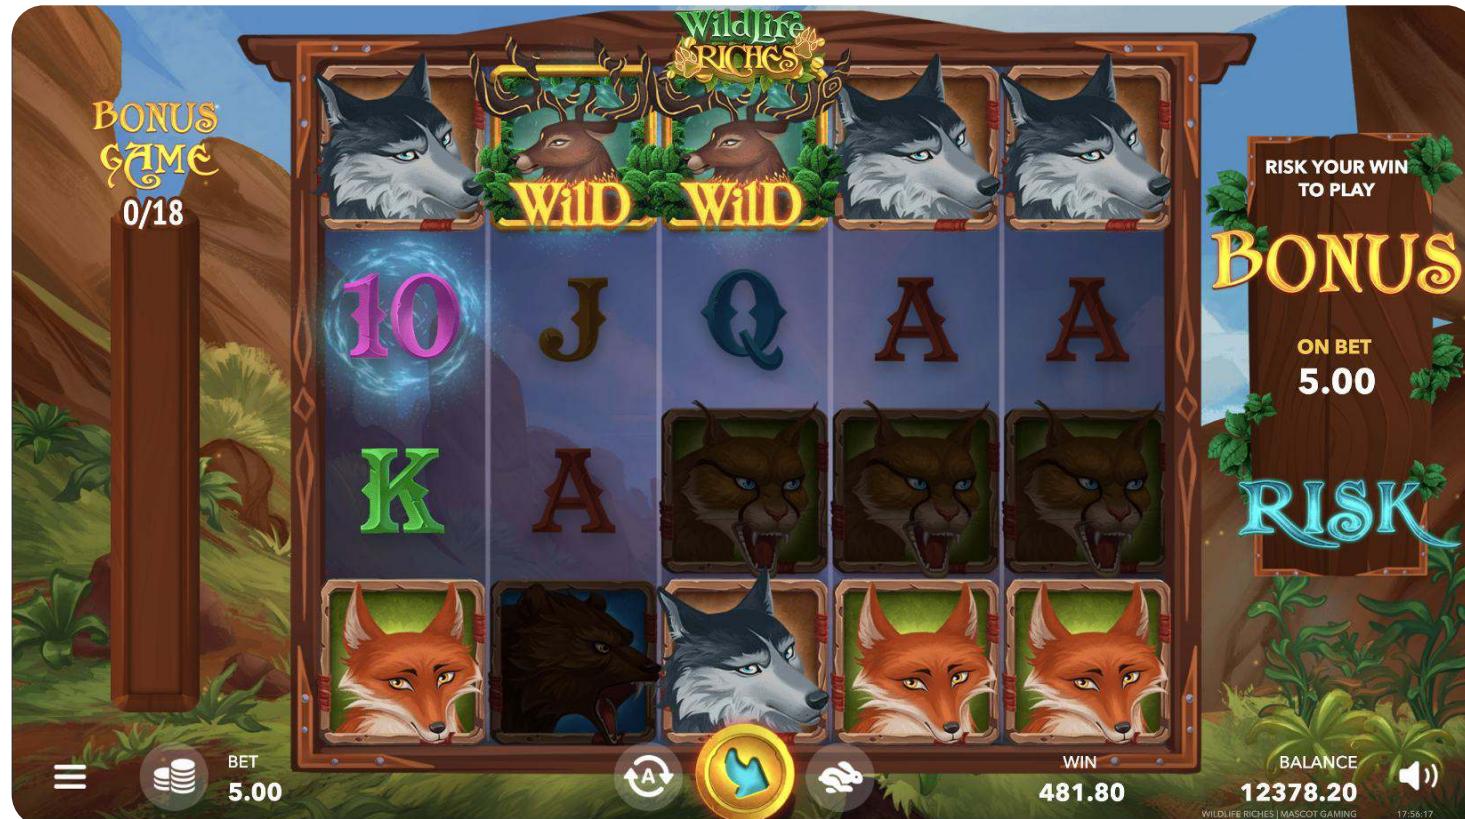

The Bonus game starts with 3 Bonus Spins. Each time a winning symbol appears on the screen, the bonus spins reset to 3. The Bonus Games starts with up to 5 multipliers or super multipliers appearing on the screen. There are different types of multipliers in this game: multiplier, super multiplier, and giant multiplier, and a modifier that multiplies the total win multiplier. If all reels are filled with winning symbols, and there are still bonus spins remaining, the number of remaining spins will be used as a Modifier. The player can also increase the number of bonus spins. In other words, this slot multiplies a lot, giving the player a wild win!
