

PLINKO POP

— BOUNCE TO BIG WINS —
IN THE NEW GAME BY TTT GAMES

PLINKOPOP

Tic Tac Toe Games, a division of Mascot Gaming, brings a fresh take on Plinko-style gameplay with Plinko Pop, a game that blends calculated randomness with real-world physics. Designed for players who appreciate both strategy and excitement, Plinko Pop delivers a dynamic experience where every drop counts.

At the heart of the game is a realistic physics model that ensures each ball behaves just as it would in real life. As the ball falls from the top, it bounces off pegs in a natural, unpredictable way before landing in one of 17 multiplier slots. Every impact, every change in trajectory follows the principles of real physics, creating an experience that is as authentic as it is engaging.

Players can tailor their approach by selecting from three risk levels—low, medium, and high—each affecting the potential range of multipliers. Whether playing it safe or aiming for high-stakes rewards, Plink Pop offers flexibility to match any playstyle.

A real-time leaderboard displays recent high-value wins, providing a transparent overview of gameplay outcomes. Additionally, the game features a progression system in which players accumulate experience through ranks, unlocking different customization options and new avatars.

Margarita Malysheva //

Head of Marketing at Mascot Gaming

"We are actively expanding TTT Games' portfolio and are excited to introduce Plinko Pop — a standout take on Plinko that sets itself apart from anything else on the market."

FEATURES

3 Risk Levels

Choose between low, medium, and high risk. The level of risk determines the minimum and maximum multipliers the ball can land on.

Realistic Physics Model

Balls fall and bounce off the pegs with precision, following an accurate physics model.

Last Big Wins

A live feed showcasing the biggest wins in the last 20 seconds.

Ranks & customization

By placing bets, players advance through ranks, unlocking new customization elements and avatars.
