ROOSTER RUN

RISK IT OR CHICKEN OUT

IN THE NEW GAME BY TTT GAMES

ROOSTERRUN

TTT Games, a division of Mascot Gaming, introduces Rooster Run—a fresh, dynamic take on crash gameplay where strategy meets humor and every step counts. With its sharp design and unexpected charm, Rooster Run adds personality to the high-stakes genre without losing sight of the thrill.

It's a uniquely structured step-by-step crash game. At each stage, players face a simple but gripping choice: cash out or move ahead. It's a constant push-and-pull between risk and reward, delivered with a wink.

Players can choose from three risk levels—low, medium, or high. The most daring can aim for multipliers of up to x10,000, navigating a game where every decision could mean glory or a very abrupt landing.

ROOSTER RUN

95% RETURN TO PLAYER	Max multiplier **x10 000**	Players **SINGLEPLAYER**	Release date **MAY 29**
	Volatility **HIGH**	Devices **MOBILE & DESKTOP**	

To match different play styles, Rooster Run features two autoplay modes. Step-by-Step Autoplay guides the rooster forward one cautious step at a time, while Instant Autoplay takes a leap of faith—instantly jumping to the selected multiplier with results just as immediate.

As players continue their cosmic adventure, they unlock rank progression rewards, including new avatars and visual customizations. Whether you're here to play smart or play stylish, Rooster Run gives you the tools to make the game your own.
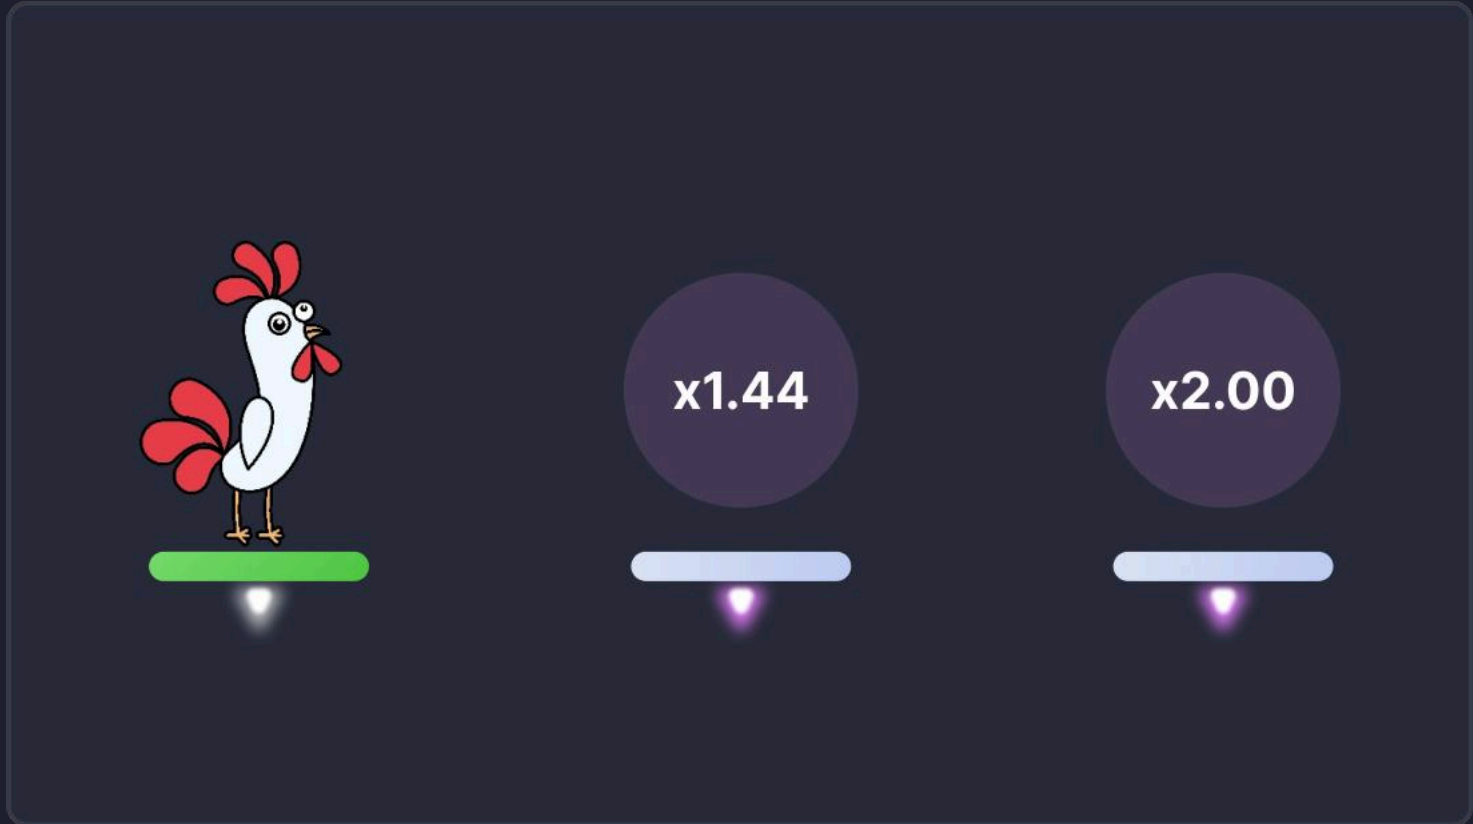

Margarita Malysheva

Head of Marketing at Mascot Gaming

"Rooster Run brings a confident, playful energy to crash gameplay. We wanted to deliver a title that stands out through smart design and a strong identity and this game delivers both with flair."
