## RIDE THE WAVES OF RISK

IN THE NEW GAME BY TTT GAMES

OVERHEAT

TTT Games, a division of Mascot Gaming, introduces Overheat — a crash game where players take control of a speedboat and decide how far they are willing to push their run.

At the center of the game is a multiplier that can climb up to x10000. The twist: it only grows while a player's finger is on the screen. Release to cash out, or hold a moment too long and the boat bursts. The result is a crash mechanic built on direct control and constant tension.

Quick decisions, rising pressure, and visible outcomes make each run feel immediate and personal.

	Max multiplier		Players		Release date
	x10 000		**SINGLEPLAYER**		**SEP 25**

	Volatility		Devices
	HIGH		**MOBILE & DESKTOP**

A live leaderboard shows bets, multipliers, and wins in real time, giving players a clear view of their results compared to others and adding a layer of competition to every run.

Progression ensures long-term engagement. With every bet placed, players advance through ranks, unlocking new avatars, boat skins, and interface options. Customization allows them to shape the atmosphere and make the game their own.
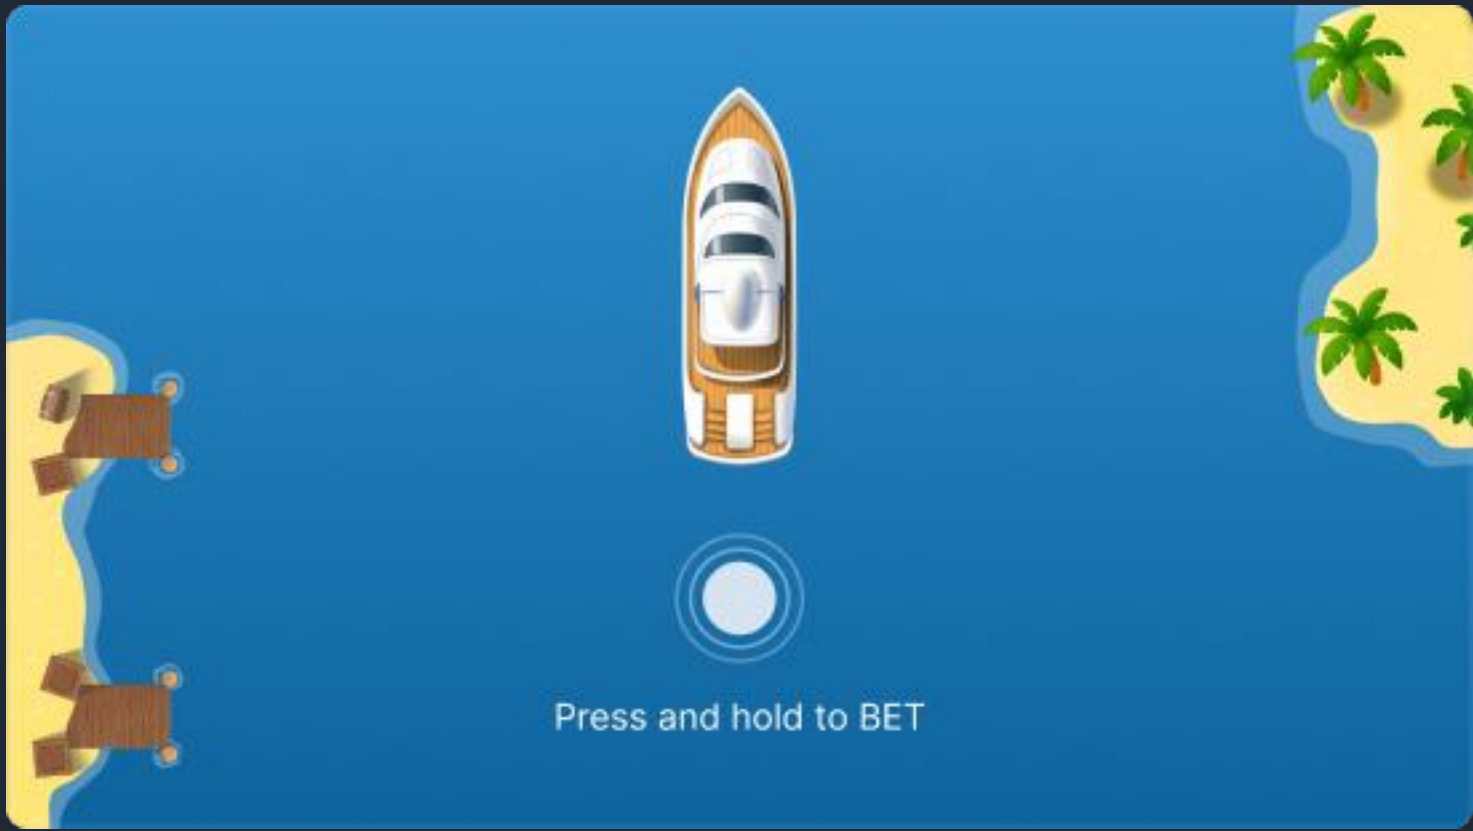

Margarita Malysheva

Head of Marketing at Mascot Gaming

"Overheat puts players right on the water — every tap feels like steering a real boat between beaches and cliffs, where one second too long can change everything."

FEATURES

Controlled Growth

The multiplier only grows while the player keeps their finger on the screen. Release too late and risk an explosion!

Live Leaderboard

The online board shows recent bets and the biggest wins in the game's history.

Ranks

By placing bets, players advance through ranks, unlocking new customization elements and avatars

Customization

Players can personalize the game area to their liking using customization options
