

PIN PLINKO

— WHERE EVERY BOUNCE MATTERS —
DISCOVER THE NEW GAME BY TTT GAMES

PINPLINKO

TTT Games, a division of Mascot Gaming, presents Pin Plinko — a modern interpretation of the classic Plinko concept, built around precision, balance, and player control.

Pin Plinko is set to become another success for TTT Games, following Plinko Pop that topped international charts. The new title builds on that success with a minimalist design, flexible gameplay options, and more ways for players to shape their experience.

Each ball in Pin Plinko follows a realistic physics model — it moves and bounces just as it would in real life. Players can adjust the number of pin rows, define how dynamic the gameplay feels, and select one of three risk levels that determine the range and volatility of potential multipliers — from steady, smaller wins to high-variance outcomes with greater rewards.

With its clean and minimalist design, Pin Plinko is built for a new generation of players — those who value clarity, customization, and purposeful design over visual noise.

As players progress, they move through ranks and unlock avatars and interface customization options, adding depth without complexity.

Margarita Malyshева 

Head of Marketing at Mascot Gaming

"After the success of Plink Pop, we wanted to build on what worked — keeping the core idea intact, but giving players even more control. That's what Pin Plinko represents."
