

PLINKO BUILDER

BUILD EVERY BOUNCE
IN THE NEW GAME BY TTT GAMES

PLINKOBUILDER

Building on the popularity of TTT Games' Plinko portfolio, Plinko Builder introduces a new level of interactivity and personalization, transforming the classic format into a customizable experience tailored to individual player preferences.

What differentiates this release is the introduction of the Plinko Board Builder feature, allowing players to choose from multiple board presets with additional structures that influence ball trajectories and diversify gameplay in every round.

Players can further tailor their experience with Adjustable Pin Rows, modifying the number of horizontal rows to create personalized board layouts and fine-tune gameplay intensity. To increase pace and dynamics, the Multi-Ball Release feature lets players drop several balls simultaneously, speeding up rounds.

In addition, Plinko Builder offers three risk levels — low, medium, and high — with each setting defining the range of multipliers and overall volatility. A realistic physics model ensures precise ball movement and authentic interactions with pegs, delivering consistent and natural behavior throughout gameplay.

By placing bets, players advance through ranks, unlocking new avatars and additional customization options. Players can personalize the game area and interface elements, tailoring the visual environment to their preferences and creating a distinctive look and feel.

Plinko Builder is designed for players who value flexibility, control, and a more interactive Plinko experience.

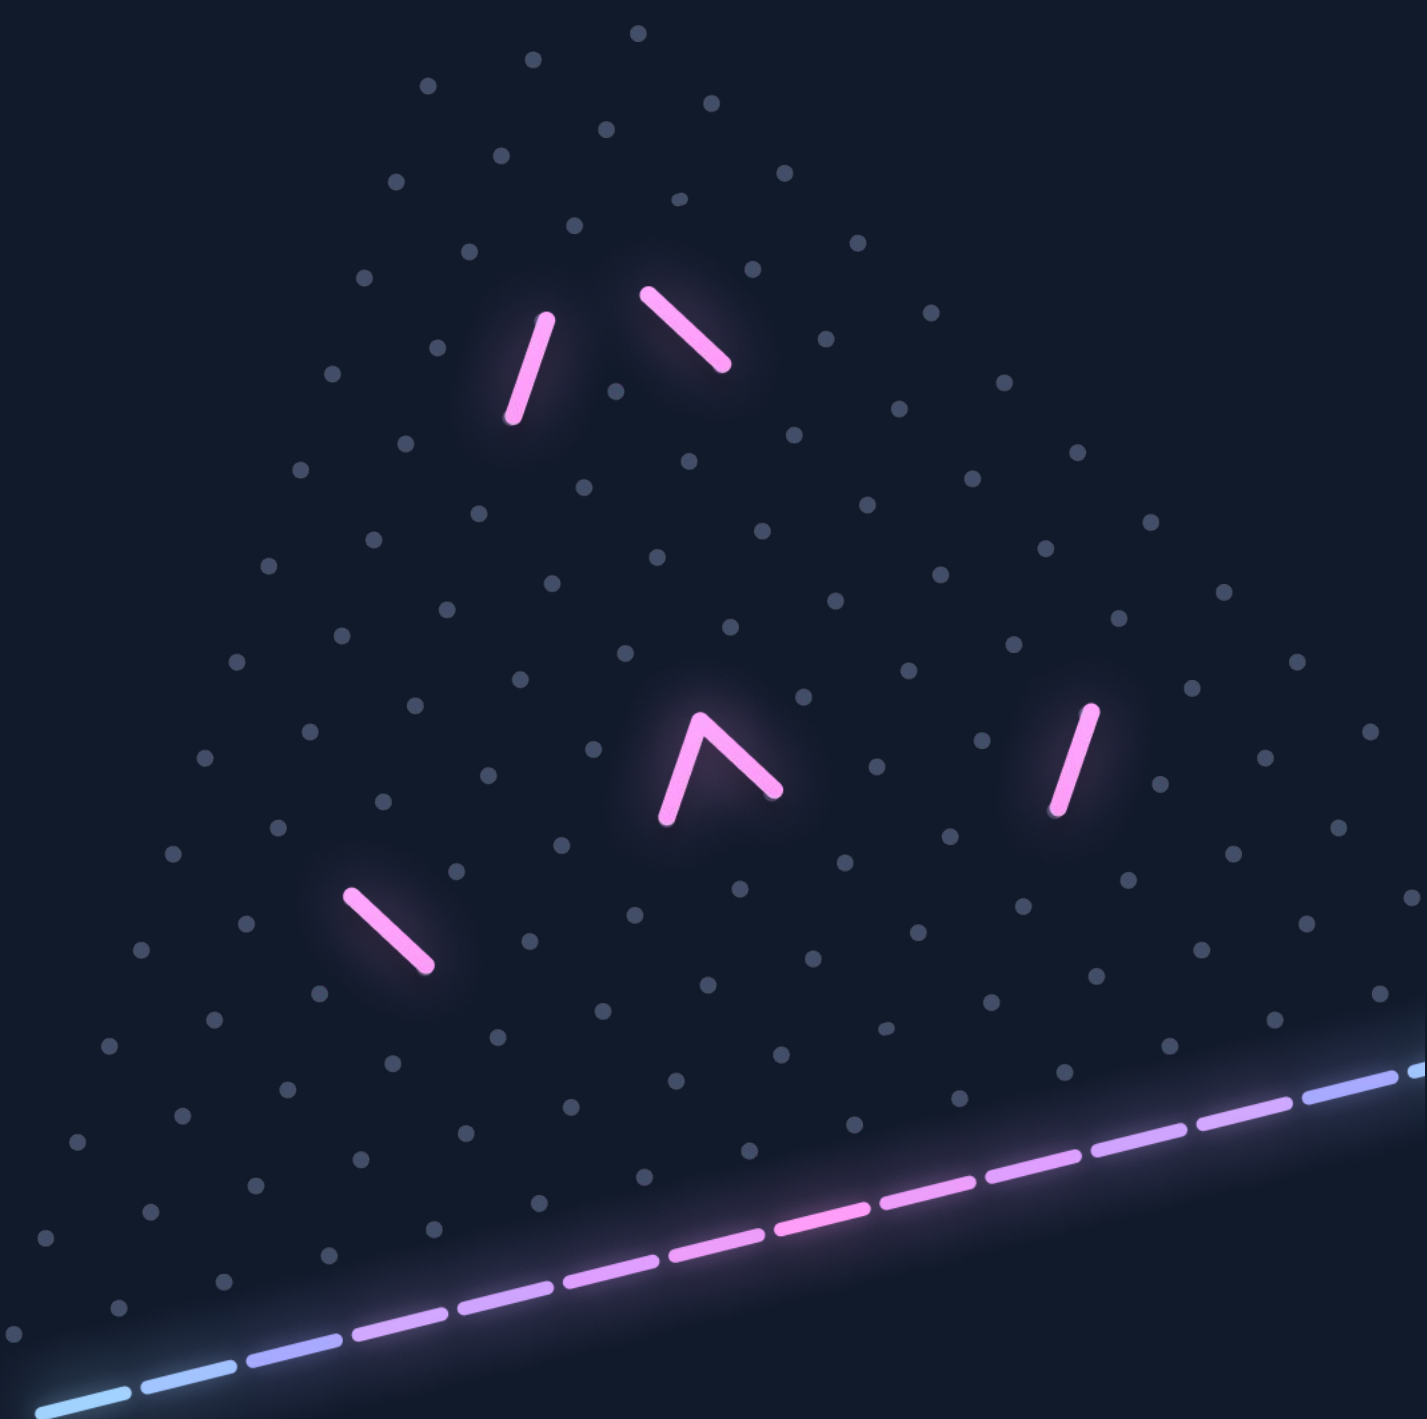

Margarita Malysheva

Head of Marketing at Mascot Gaming

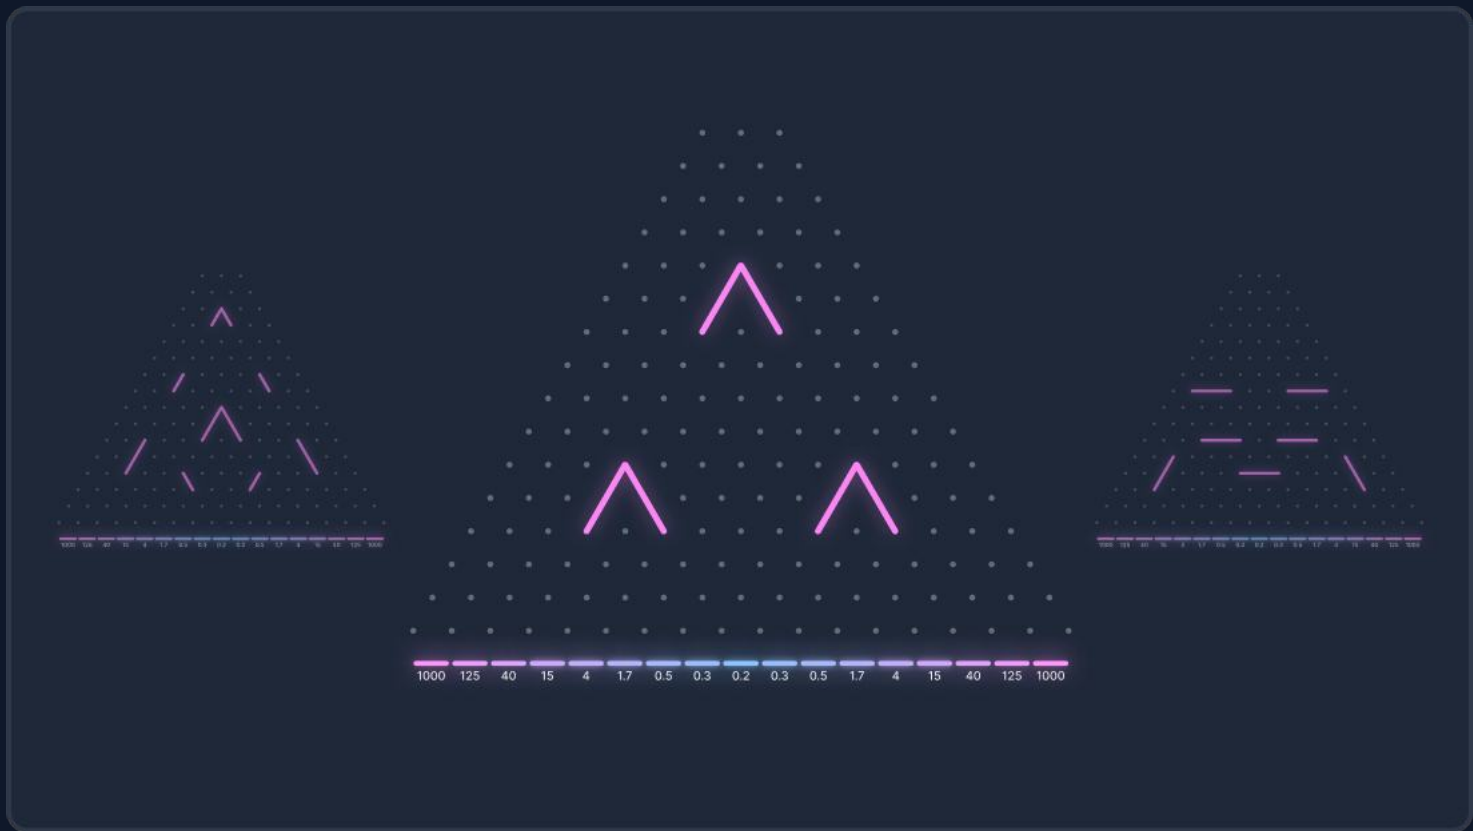

“Customization has become a key driver of engagement, and Plinko Builder reflects that trend.

The new board builder is designed to increase session time and player retention.”

FEATURES

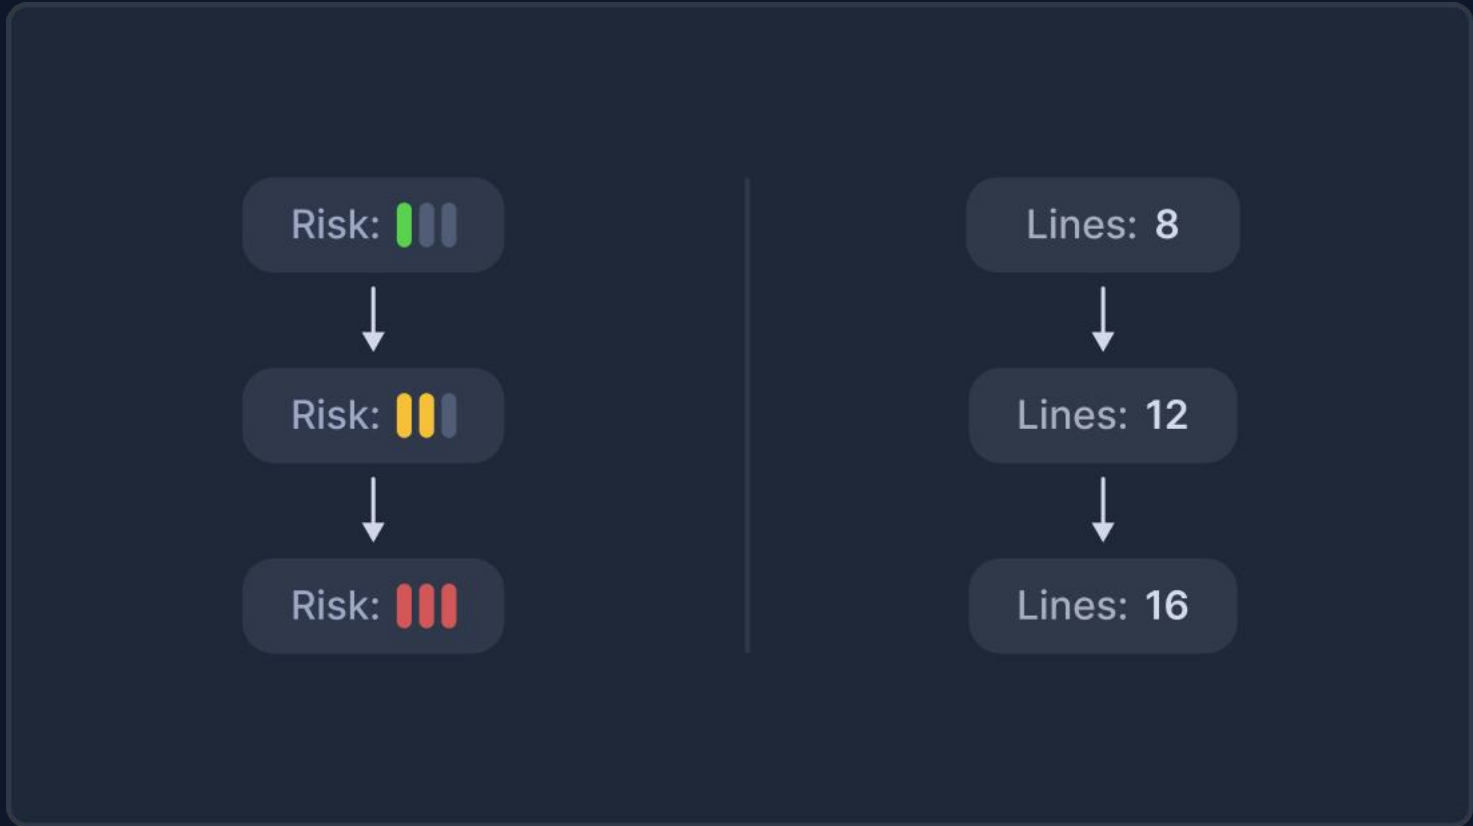

Build Your Plinko

Players can choose from multiple board presets, customizing the playfield with different layouts and elements that reshape ball trajectories and create varied gameplay experiences.

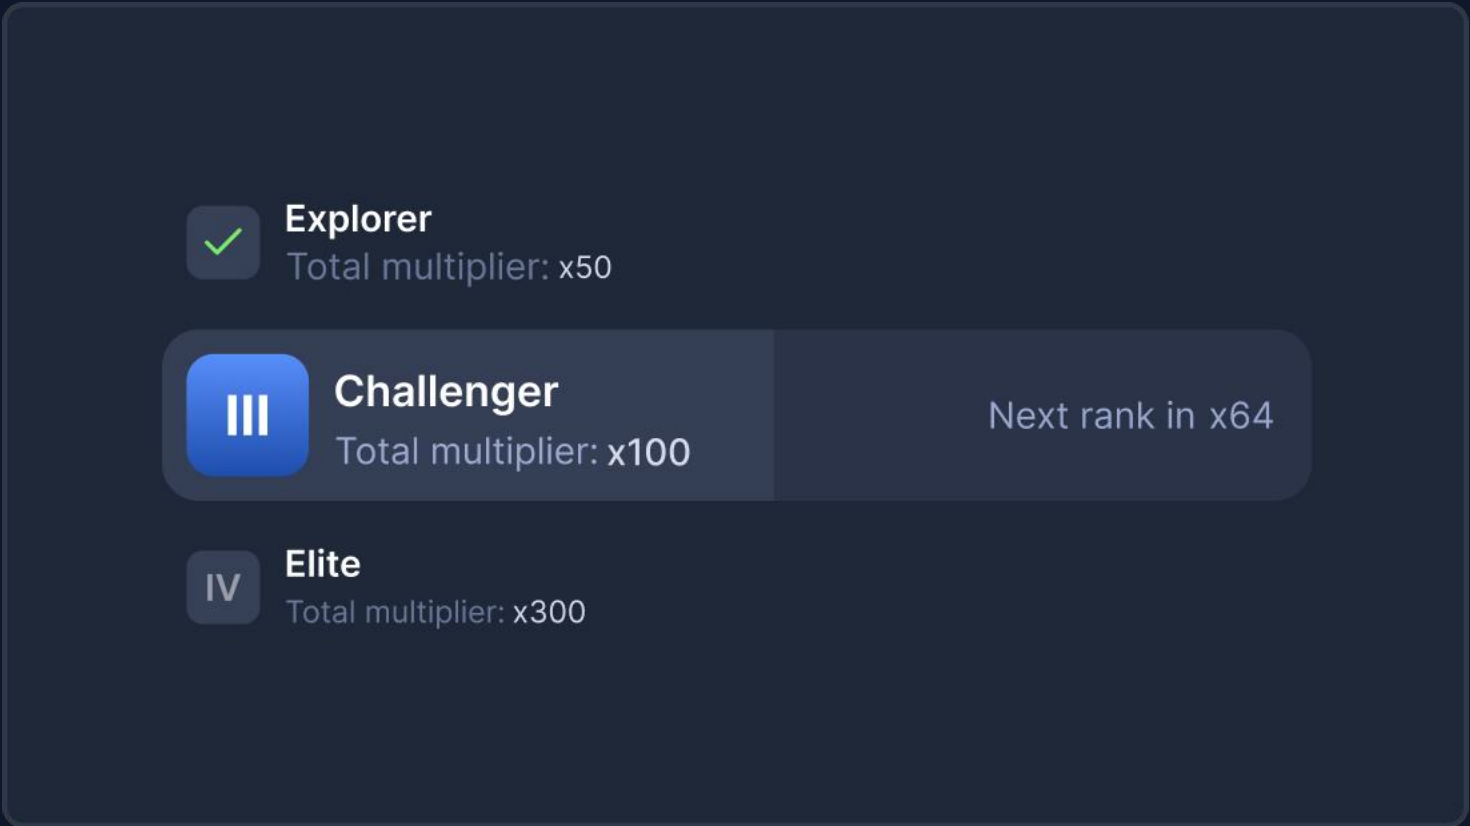

Up to 10 Bets Per Tap

Players can release multiple balls at once, speeding up gameplay and making every round more dynamic.

Adjustable Risk & Pin Layout

Players can switch between risk levels and customize the number of pin rows, shaping both the challenge and reward potential of every round.

Ranks & customization

By placing bets, players advance through ranks, unlocking new customization elements and avatars.
