Up to 15 Free Spins with a chance to win additional Free Spins.

 RISK GAMBLE

Gamble your winnings for a chance to increase them with a win multiplier.

GAME MECHANICS

Battle Loot: Hold and Win is **built around two bonus features**: Hold and Win and Free Spins, both designed to maintain **continuous gameplay** and **extended feature sessions**.

The Hold and Win feature is triggered by landing 6 or more coin symbols on the reels. Once activated, all coin symbols lock in place and a respin sequence begins. Each new coin symbol that lands is added to the grid, resets the respin counter, and increases the total accumulated value.

A Collect symbol can land during the feature, gathering the values of all coin symbols currently on the screen and significantly increasing the total win.

As the grid fills, **the round develops step by step**, building toward higher-value outcomes. Jackpot symbols may appear during the feature, awarding one of four available jackpot prizes: Mini, Minor, Major, and Grand.

The game includes a Free Spins feature, triggered by landing 3, 4, or 5 Scatter symbols, awarding 10, 12, or 15 Free Spins respectively. During Free Spins, additional spins can be retrIGGERED by landing at least 3 Scatter symbols, extending the feature.

The Risk and Buy feature provides additional control over gameplay. Players can enter Free Spins or Hold and Win directly via the Buy option under predefined conditions. Following any winning spin, the Risk feature offers a gamble on a 5x3 grid, where the player selects a card in an attempt to beat the dealer's card, increasing the payout through a win multiplier.

DESIGN

Battle Loot: Hold and Win opens a new chapter in the For the Realm universe, focusing on a dwarven storyline built around battle and the pursuit of treasure. The screen is rich with glow and detail - coins shine, values pulse, and sturdy dwarf characters anchor the action. A cinematic, battle-tinged soundtrack supports the atmosphere, adding depth and keeping the energy steady throughout the session.

Margarita Malysheva, Head of Marketing at Mascot Gaming:

"This slot is designed as a **core performer**, combining feature-driven gameplay with a steady, easy-to-follow flow. It will appeal not only to fans of the series, but to players drawn to fantasy medieval settings and treasure-driven themes."
