GAME MECHANICS

Poseidon the Deep King is built around three core mechanics: Rockways, Rockfall and progressive multipliers.

Each spin Rockways forms a unique number of payways, from 64 up to 117,649.

When a winning combination lands, the Rockfall mechanic removes the winning symbols and replaces them with new ones, allowing the round to continue within the same spin. This cascade flow is supported by progressive multipliers: each new Rockfall increases the multiplier. In the base game, the Rockfall multiplier moves up to x10, creating a clear feeling of progression as the round develops.

Free Spins are the bonus feature of the game. To trigger 12 Free Spins, players need to land at least 4 Scatters. Each additional Scatter in the triggering combination awards 3 extra Free Spins.

During Free Spins, the multiplier ladder becomes stronger and can reach up to x25, giving longer cascade sequences higher impact. If 4 Scatters land during the feature, players receive 12 additional Free Spins, plus 3 extra Free Spins for each additional Scatter.

To give players more agency, the game also includes Risk and Buy features. Buy provides direct access to Free Spins, while Risk gives players the option to gamble their winnings for a chance to increase them with an additional multiplier.

DESIGN

Deep beneath the surface, Poseidon's kingdom rises from the ocean floor: dark, powerful, and filled with golden treasures. The game builds its atmosphere around a premium sea-god setting, combining deep blue tones, ancient symbols, glowing rewards, and the presence of Poseidon at the center of the action.

Poseidon the Deep King is a polished slot with rich visuals and a soundtrack worthy of the Sea God himself.

Margarita Malysheva, Head of Marketing at Mascot Gaming:

"Poseidon the Deep King is designed as a core performer and a high-impact slot. The game combines a proven mythological theme with high volatility and strong win potential, making it easy to position and easy to promote, perfectly suited for players who prefer dynamic gameplay."
