FREE SPINS

Up to 15 Free Spins with a chance to win additional Free Spins.

GAME MECHANICS

Riot: Feral Riches is **built around two bonus features**: Hold and Win and Free Spins, both designed to keep the round moving and **reward sustained play**.

The Hold and Win feature is triggered by landing 6 or more coin symbols on the reels. Once activated, all coin symbols lock in place and a respin sequence begins. Each new coin symbol that lands is added to the grid, resets the respin counter, and increases the total accumulated value.

A Collect symbol can land during the feature, gathering the values of all coin symbols currently on the screen and significantly increasing the total win.

As the grid fills, **the round develops step by step**, building toward higher-value outcomes. Jackpot symbols may appear during the feature, awarding one of four available jackpot prizes: Mini, Minor, Major, and Grand. The Grand Jackpot is only awarded when the whole grid is filled with symbols during the Hold and Win Bonus.

The game also includes a Free Spins feature, triggered by landing 3, 4 or 5 Scatter symbols, which award 10, 12 or 15 Free Spins respectively. Landing further Scatters during the round retriggers additional spins - 3, 5 or 8 depending on the number landed - extending the feature beyond its starting count.

The Risk and Buy feature gives players more control over the game. Through Buy, players can get access to Free Spins and Hold and Win features. After any win, the Risk feature lets players gamble it on a card draw for a chance to multiply the winnings up to x2500.

DESIGN

Riot: Feral Riches stays close to the tribal identity of the Riot universe, set against the golden grasslands and acacia trees of the African savanna. Earthy textures, weathered tones and rough symbol design give the game a primal feel. A pulsing soundtrack keeps the tension steady through every spin and building naturally into the bigger moments of the round.

Margarita Malysheva, Head of Marketing at Mascot Gaming:

“Riot: Feral Riches is built to **perform as a core title** in any portfolio. Every spin moves the player closer to something bigger, and that build-up is what keeps the round engaging without depending on one single outcome.”
