 **FREE SPINS**

At least 3 Scatters trigger 10 Free Spins with a chance to win additional Free Spins.

GAME MECHANICS

In the base game, Wild symbols substitute for all symbols except Scatter and Coin, helping complete winning combinations. Coin symbols carry prize values, and when a Collect symbol lands alongside them while fewer than 6 Coins are present, all visible values are gathered instantly.

Landing 6 or more Coin symbols activates the Hold and Win Bonus. Coins lock in place and start a respin cycle, with every newly landed Coin refreshing the counter and extending the feature. Coin symbols may reveal Mini and Major Jackpot rewards, while filling the entire screen with Coins awards the Grand Jackpot.

Landing at least 3 Scatter symbols in the base game triggers the feature and awards 10 Free Spins. During Free Spins, landing at least 3 additional Scatter symbols awards 10 extra Free Spins. The Coin mechanics remain active throughout the bonus round, allowing the Hold and Win Bonus to be triggered directly during the feature.

The game also includes Mascot Gaming's Risk & Buy feature. Buy allows direct access to Free Spins or the Hold and Win Bonus under predefined conditions, while Risk gives players a chance to increase winnings through the Risk Wheel multiplier mechanic.

DESIGN

Jackpot Gem Rush: Hold and Win takes players into a stone vault filled with coin piles and cut gems, keeping the treasure-hunt feeling consistent from the base game through the bonus. Glowing Coin symbols and rich jewel tones give weight to each Collect payout, while the jackpot reveal leans on that same palette, letting the size of the win carry the moment.

Margarita Malysheva, Head of Marketing at Mascot Gaming:

"Jackpot Gem Rush: Hold and Win takes a format players already trust and gives the base game a smoother, more active rhythm – no learning curve, just more happening between features. It works whether someone's playing it safe or chasing the jackpot, and the buy-in option gives operators a direct monetization on top of that. It's the kind of release that's easy to add to a lobby and easy to see working."
