COMMERCIAL FEATURE

 FREE SPINS

Free Spins with a chance to win additional Free Spins

 PAYS ANYWHERE

Winning combinations can appear anywhere on the screen

 MULTIPLIER SYMBOL

All multipliers are added together and applied to the total win

GAME MECHANICS

Milk & Luck runs on a Pays Anywhere structure, so winning combinations can land anywhere on the 6x5 grid rather than along fixed paylines. Every win triggers Rockfall: the winning symbols clear from the board and new ones drop in to fill the gaps, and the process repeats for as long as fresh combinations keep forming, so a single spin can turn into a short run of consecutive wins. Multiplier symbols can appear during any Rockfall sequence and are collected as they land; once the chain finally stops, every multiplier that showed up gets added together and applied to the total win in one go, giving each cascade a bit of building tension before the payout is known.

Landing four or more Scatter symbols awards 12 Free Spins. Multipliers picked up during the round don't reset between spins, they keep adding up, and each win is paid out at the current running total. Landing three or more Scatters during Free Spins adds extra spins on top. For players who want to skip the build-up, a Buy Feature offers 12 Free Spins at a standard x1 starting multiplier or, at a premium price, with a random starting multiplier of x6, x7 or x8 already banked. Alongside that sits Risk Mines, an optional gamble round where players stake a current win and reveal tiles hiding multipliers, empty results, or a trap – multipliers push the win higher, up to x3000, a special symbol advances players to a level with bigger multipliers and bigger trap risk, and hitting a trap ends the round.

DESIGN

Milk & Luck has the warm, storybook feel of a countryside morning – hay bales, a wooden signpost frame around the reels, and a dog and cat sitting just outside the grid. It's a cozy, inviting atmosphere that never feels busy.

Margarita Malysheva, Head of Marketing at Mascot Gaming:

“Milk & Luck is built on the idea that your luck grows right alongside you. Every spin brings players a little closer to the next big moment, and that steady sense of progress is what keeps them coming back. It's an easy game for almost any audience to pick up in the first few spins, and that mix of accessibility and momentum is exactly what turns into strong engagement and retention on the operator's side.”
