FREE SPINS WITH STICKY WILDS

Symbols transform into Sticky Wilds until the end of the Free Spins series.

GAME MECHANICS

Wild symbols substitute for all regular paying symbols, so wins can form even when a line is one symbol short of completing on its own.

The game runs on two Scatter symbols, each opening a different Free Spins mode. Landing three Horn Scatters triggers a round where Demon symbols turn into a Sticky Wild Reel, it stays in place for the rest of the round and hands the player a Free Respin. Three Axe Scatters lead into a separate Free Spins mode built around Dark Horde symbols. Any Dark Horde that lands during this round turns into a Sticky Wild and stays on the reels until the feature ends, so the board keeps building toward bigger combinations.

Players who don't want to wait for Scatters can use the Risk & Buy feature, which offers direct access to both Free Spins modes under predefined conditions.

While the Risk Game gives players the option to gamble their win on a three-level Wheel of Fortune. Each level raises the multiplier, so players choose how far to push a win before

DESIGN

Bet For the Realm is set in a fantasy kingdom caught between rival forces fighting for control. The setting shifts depending on which Free Spins mode is in play. A varied soundtrack shifts along with the visuals, changing tone between modes and pulling the player further into whichever side of the conflict they've landed in.

Margarita Malysheva, Head of Marketing at Mascot Gaming:

"Bet For the Realm gives players two clear paths into the bonus round, and that choice is what keeps them coming back to a session. It's the kind of game that works for a broad player base – easy to pick up, but with enough depth in how the reels build that experienced players stay engaged too."
