HOLD AND WIN

Respins with accumulating wins and a chance to win a Jackpot prize.

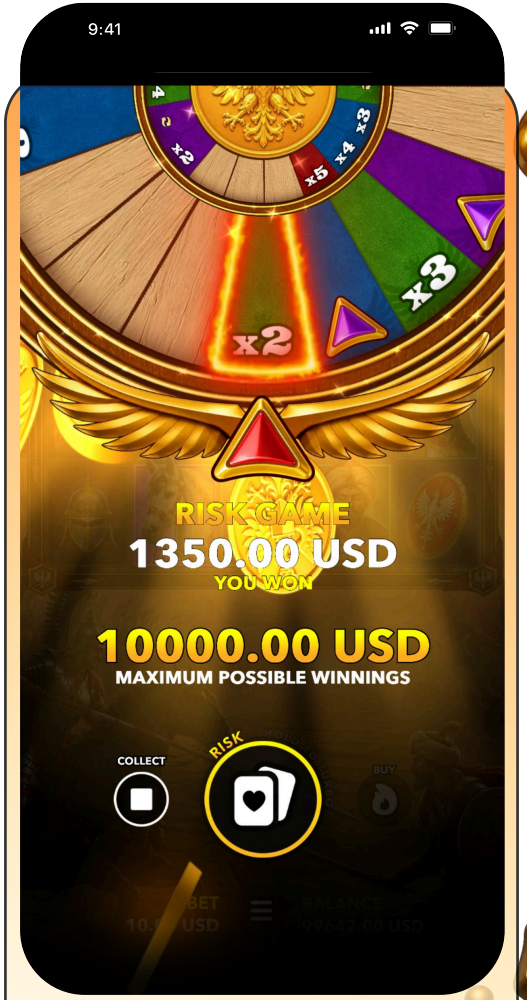

COMMERCIAL FEATURE

JACKPOT

Three types of jackpot prizes available in the game.

COMMERCIAL FEATURE

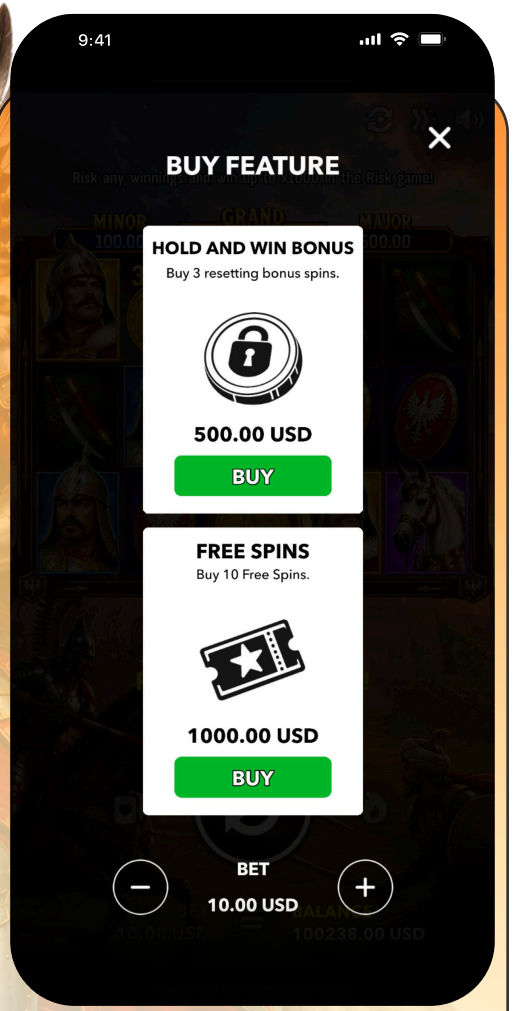

RISK WHEEL

Spin the Risk Wheel for a chance to increase your winnings by getting a win multiplier.

COMMERCIAL FEATURE

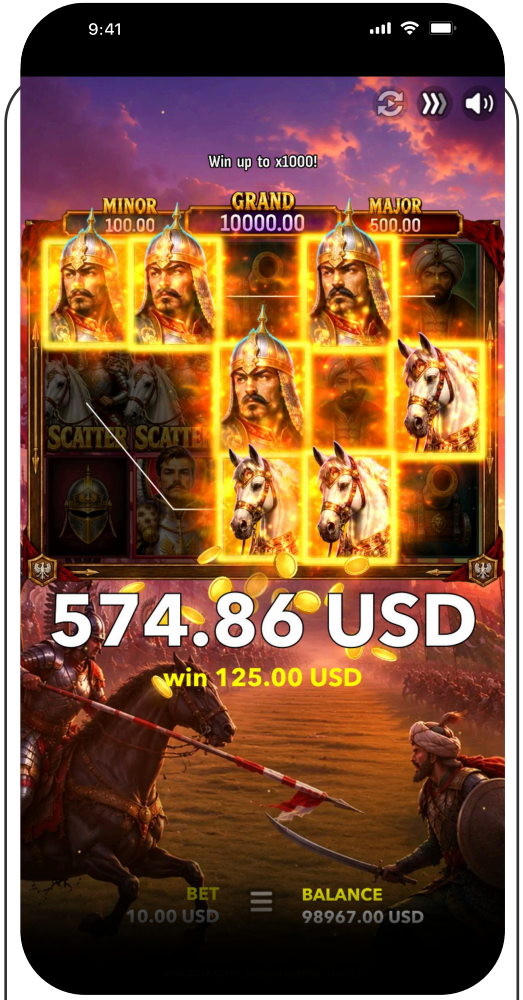

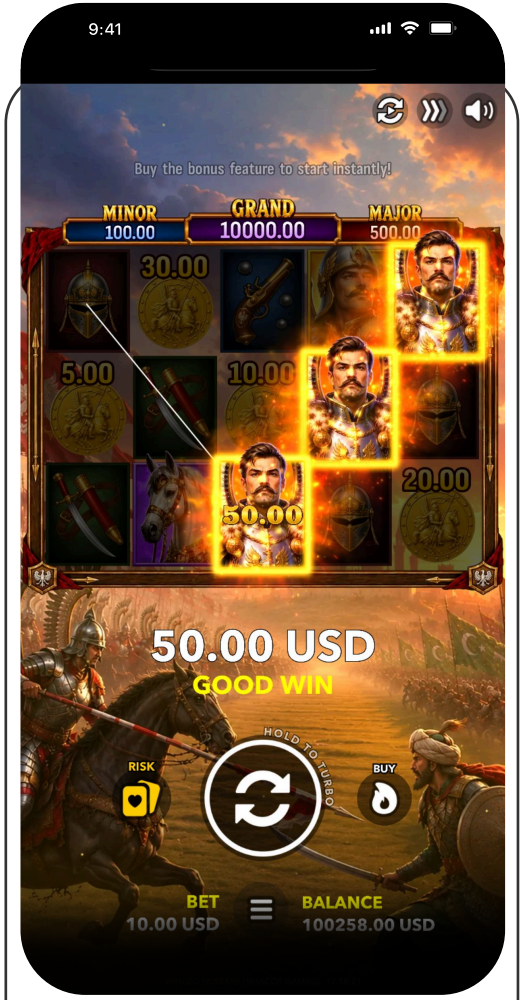

BUY FEATURE

Buy Free Spins or Hold and Win with the proposed conditions and at the suggested price.

FREE SPINS

10 Free Spins with a chance to win additional Free Spins.

PAYS ON ANY PAYLINE

Wins are paid on paylines, but the combination can appear anywhere along the payline.

COMMERCIAL FEATURE

Mascot Gaming presents Winged Hussars, a custom game where cavalry charges, jackpots, and Hold and Win come together in a battle-themed slot built for repeat play.

GAME MECHANICS

Coin symbols carry cash values or Jackpots and appear across the reels throughout the game. A Collect symbol pays out whatever values are showing on screen. Once enough Coins land together, Hold and Win is triggered.

Hold and Win locks every Coin symbol in place and hands the player 3 respins. Landing a new Coin during the bonus round resets the respin count, so the feature can keep going as long as fresh symbols keep appearing. A completely filled grid pays the Grand Jackpot, the largest of the three prize tiers on offer.

At least 3 Scatter symbols in the base game trigger 10 Free Spins, and further Scatters during the round can extend it. Coin symbols keep working the same way inside Free Spins, so a strong run can pull Hold and Win into the mix before the spins run out - stacking one bonus on top of another. It's this overlap that gives the game its range, **from a quick, frequent payout to a longer run with a jackpot attached**.

The developer's signature Risk and Buy feature sits on top of the core game. Buy gives instant entry into Free Spins or Hold and Win for a set price, skipping the wait. Risk lets players spin any win on a Wheel of Fortune for a chance at a multiplier before cashing out. As with the rest of the game, wins land on paylines, but the winning symbols can sit anywhere along the line, not just in a fixed order.

DESIGN

Winged Hussars sets its reels against a 17th-century-style battlefield, with armored cavalry, ornate helmets, and command flags framing the action. The card values, red-and-gold shields, and sword and cannon symbols carry the era's military detail into every corner of the grid. Behind the reels, a wide battlefield stretches out under a burning sunset sky, a lone hussar and his lance poised to charge - and the soundtrack builds right alongside it, giving each spin a sense of tension before the reels even stop. It's a game that feels like the moment right before a charge, held on the edge of something bigger.

Margarita Malysheva, Head of Marketing at Mascot Gaming:

> "Winged Hussars is built to keep players engaged round after round. The base game **delivers steady, readable action**, while the **two bonus systems feed into each other** and open the door to bigger outcomes - that's the kind of depth we build into every custom title."
