LUCKY NUMBERS

3 random numbers are selected by the game and increase a total win multiplier up to x10.

FREE GAMES

Free games can be won by the player according to the Last Number rule.

WHAT IT MEANS FOR OPERATORS

A PROVEN FORMAT

Mascot Keno games consistently rank among our top titles by GGR, player count and bet volume. Viking Fortune Keno builds on this proven demand.

MORE ENGAGING GAMEPLAY

Lucky Numbers and Free Games add variety and anticipation to classic keno gameplay. Players have more to follow in every round, so they stay in the session longer.

A BET RANGE FOR DIFFERENT PLAYER SEGMENTS

Bets range from 0.2 to 25, so the game suits low-stake players as well as those who prefer bigger bets. One game covers a wider audience.

FAST ROUNDS ON ANY DEVICE

The Mobile First UI cuts the game's starting size by up to 25% and runs smoothly on low-end devices, so technical issues don't push players out of the game. Random Pick and Turbo Mode keep rounds fast, so more rounds fit into each session and more bets are placed

A LOOK PLAYERS REMEMBER

Bright, memorable graphics and atmosphere catch the eye in the lobby and make the game recognizable at first glance.
