ROCKFALL

All winning symbols are removed from the screen and replaced with new ones, which can create a chain of cascades within a single spin.

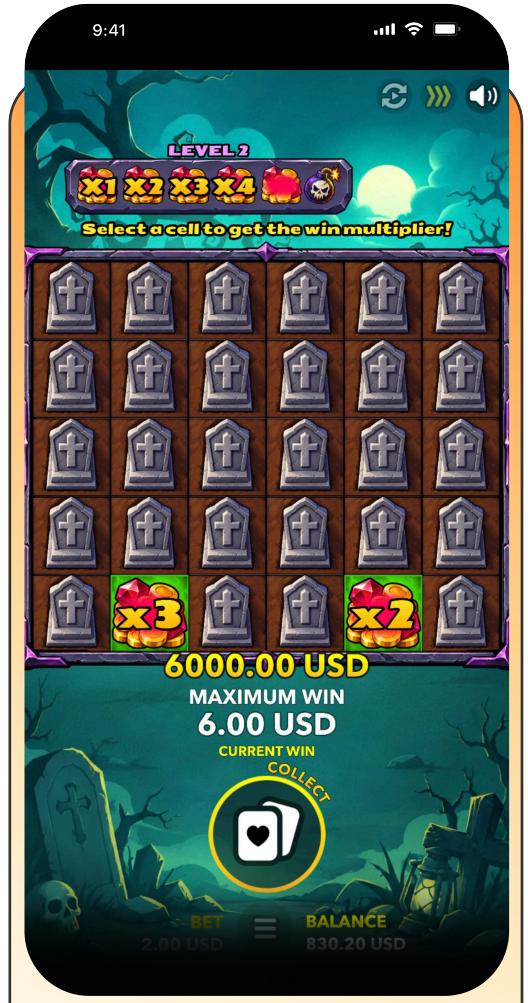

COMMERCIAL FEATURE

BUY FEATURE

Buy Free Spins with the proposed conditions and at the suggested price.

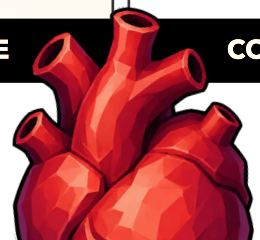

COMMERCIAL FEATURE

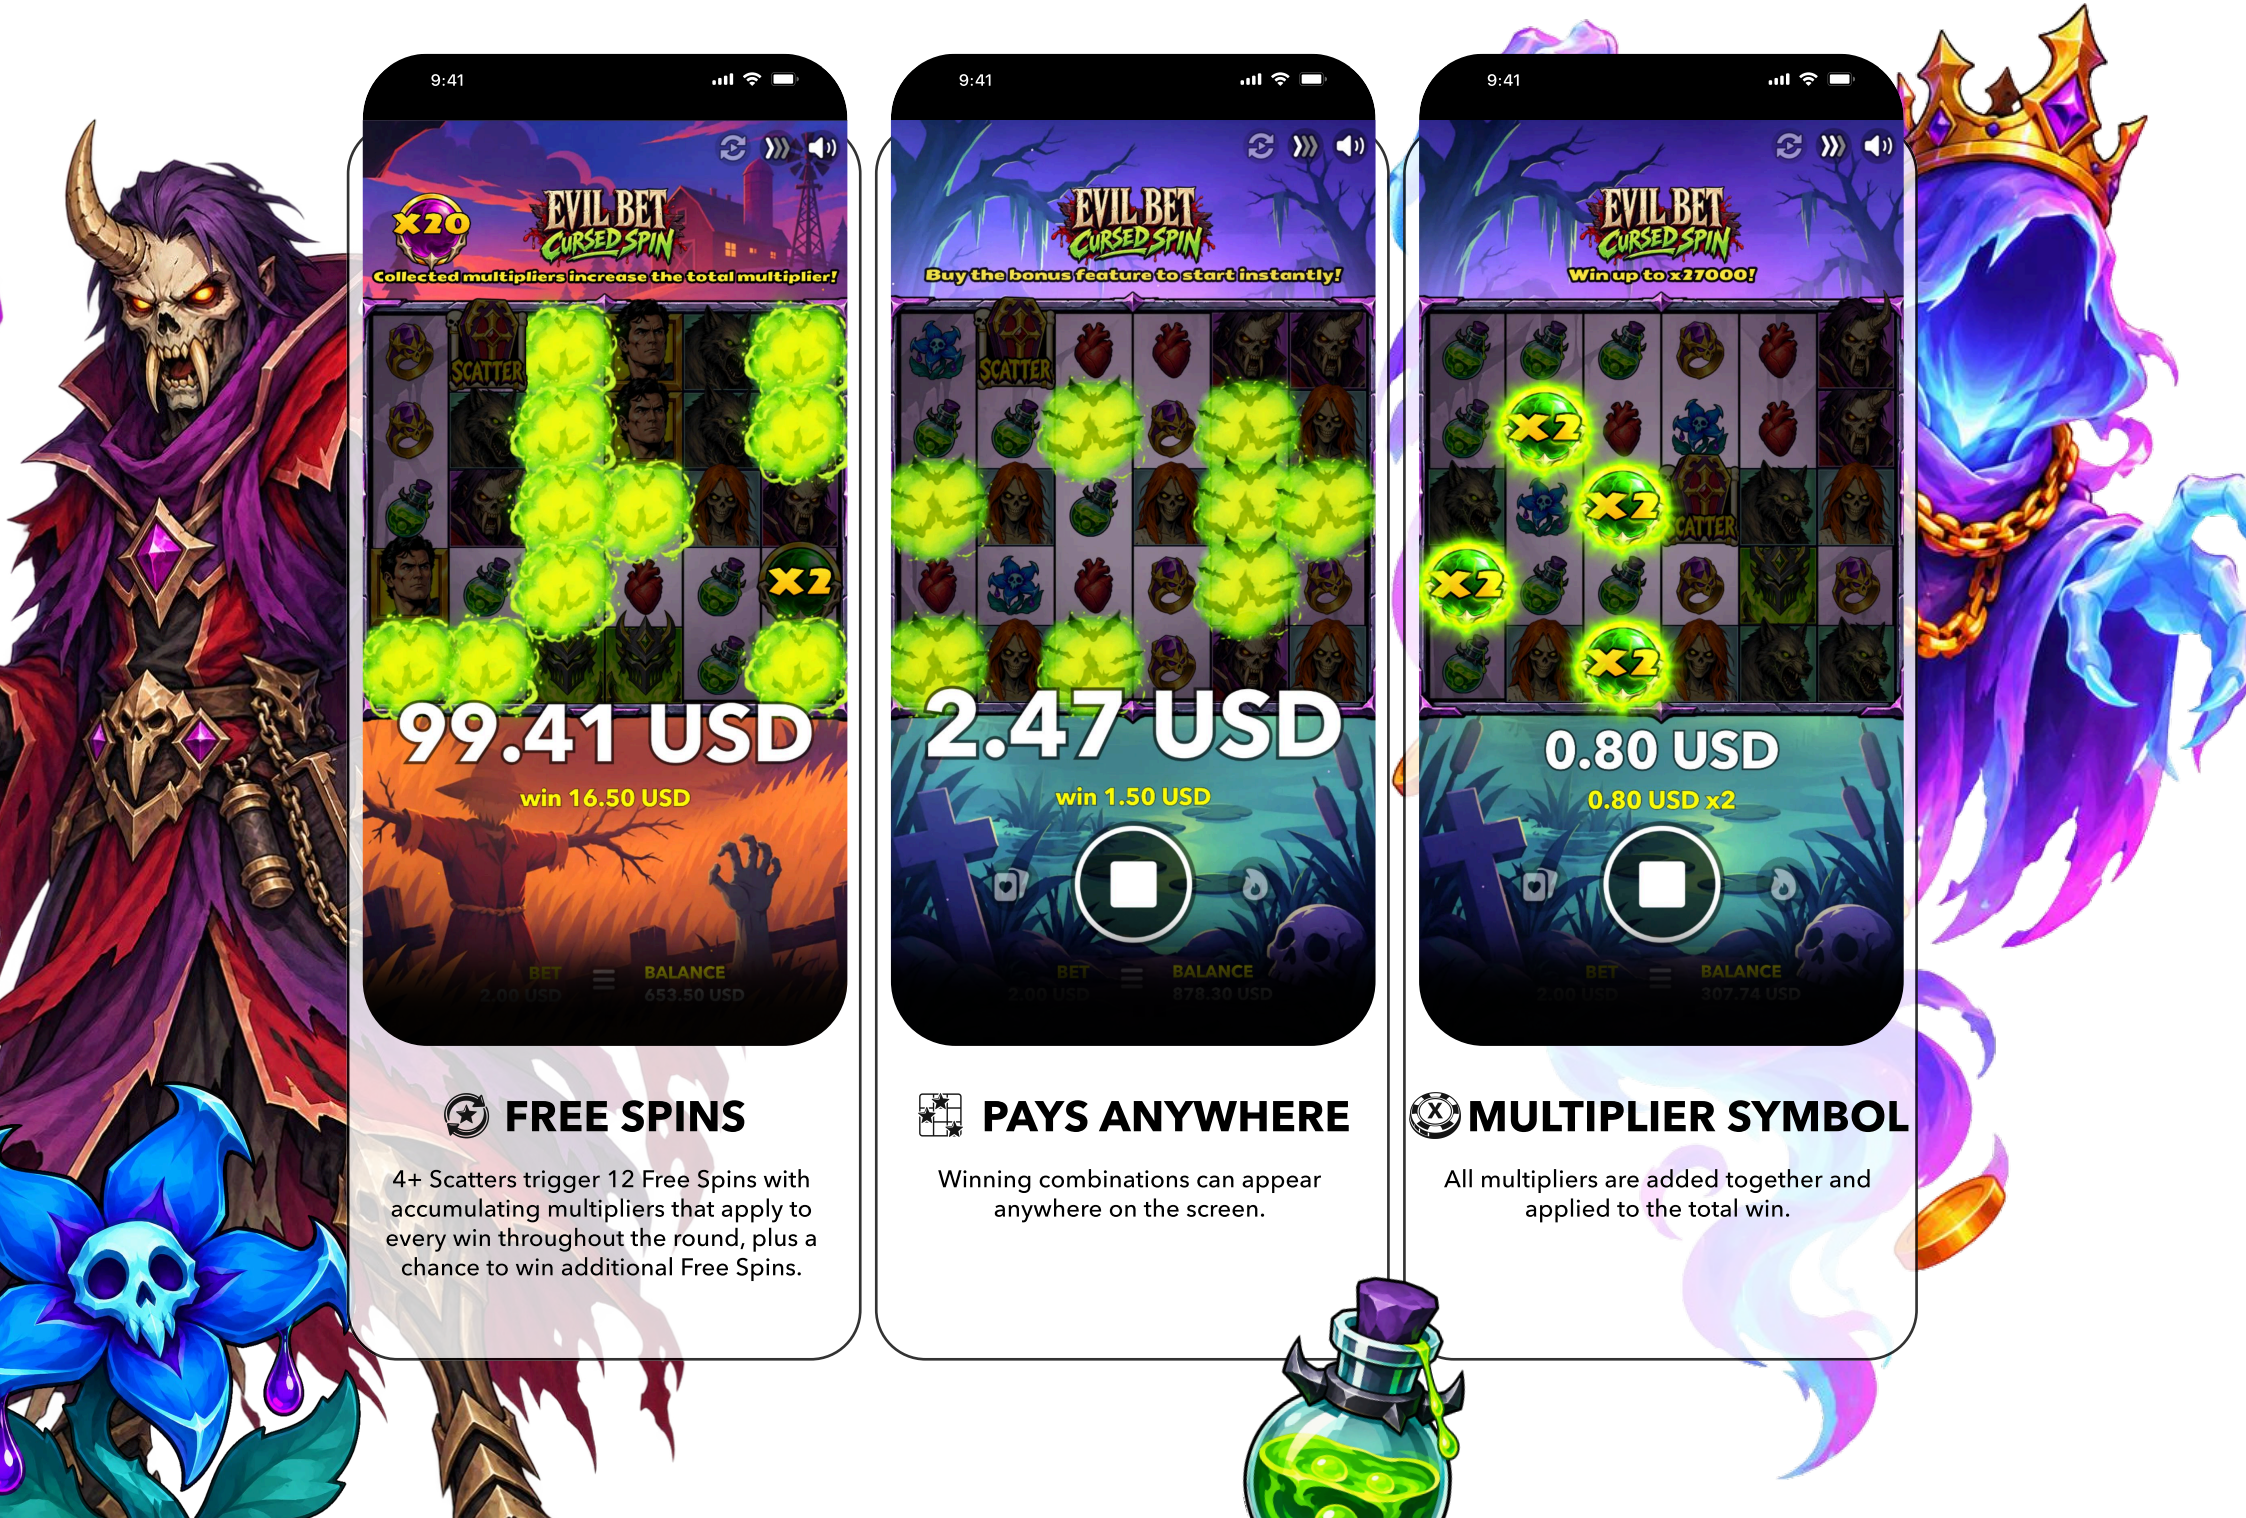

RISK MINES

After any winning spin, risk your winnings for a chance to multiply them. Choose cells to reveal multipliers, empty cells, bombs, or a special symbol that unlocks the next level with bigger rewards.

COMMERCIAL FEATURE

FREE SPINS

4+ Scatters trigger 12 Free Spins with accumulating multipliers that apply to every win throughout the round, plus a chance to win additional Free Spins.

PAYS ANYWHERE

Winning combinations can appear anywhere on the screen.

MULTIPLIER SYMBOL

All multipliers are added together and applied to the total win.

WHAT IT MEANS FOR OPERATORS

A SLOT PLAYERS RETURN TO

Games with similar mechanics saw player numbers and bet volume grow by up to 25% by Day 14. Players get attached to this type of game and keep coming back.

EASY TO START

Players don't need to master complex mechanics to get started.
An intuitive gameplay experience lowers the entry barrier and helps the slot appeal to a broader audience.

ACTIVE BASE GAME

The combination of Rockfall and multiplier symbols makes the base game more dynamic, creating more exciting outcomes and encouraging longer sessions and more betting activity.

FREE SPINS WITH MORE VALUE

Accumulating multipliers apply to every win throughout the Free Spins round, while extra spins can extend the bonus. This gives players more reasons to pursue Free Spins in the base game, keeping them in the session longer, or access them through Buy Feature.

A BUY FEATURE FOR DIFFERENT BANKROLLS

Two Buy options come at different price points and offer different starting multipliers, making paid Free Spins appealing beyond high rollers. Combined with the added value of accumulating multipliers, this creates more accessible purchase options and opens up monetization opportunities across different player segments.

A REASON TO RAISE THE STAKES

Risk Mines gives players agency by letting them choose which cells to open across different levels and multipliers. Even a modest payout can become a more substantial win, giving players an incentive to keep playing and explore the feature. For operators, this creates an additional engagement loop that can encourage repeat interaction with the game and motivate players to increase their base bets for a chance at bigger payouts.

NEW UI

The new Mobile First UI cuts the game's starting size by up to 25%, runs stably on low-end devices and keeps the controls simple. With no technical reasons to leave, players stay in the session longer, and Turbo mode lets them fit more spins into it.
