WHAT IT MEANS FOR OPERATORS

LONGER SESSIONS, FEWER EMPTY SPINS

A combination of Nudge and Collect adds variety to the base game and cuts the number of empty spins. When a Collect symbol lands with Coin symbols or Jackpots, it pays out their total value. The game doesn't get boring between bonus entries, so players stay longer and spin more.

THREE JACKPOT TIERS KEEP PLAYERS IN THE GAME

Grand is the big, rare target. Mini and Major land more often and show that the jackpots are genuinely winnable. Players stay in the session longer and come back more often, which works on retention.

A BONUS THAT STAYS FUN

In Hold and Win, Collect picks up coin values along with the Mini and Major jackpots, so any respin can rewrite the round. No two bonus entries play out the same way, and players come back for the next one, which builds LTV.

HIGHROLLERS LOVE BUY FEATURE

Direct entry into Hold and Win at x100 the base bet. High rollers don't want to wait for the bonus to trigger, which makes the feature attractive to them.

HIGHER BETS FROM EVERY BANKROLL

The Risk Wheel appeals to a broad audience, from low-stake players to high rollers. A modest payout can turn into a real one, so even a weak result becomes a motivation to keep playing. It gives players a clear signal as well: by increasing the base bet, they have a chance at bigger payouts.

NEW UI

The new Mobile First UI cuts the game's starting size by up to 25%, runs stably on low-end devices and keeps the controls simple. With no technical reasons to leave, players stay in the session longer, and Turbo mode lets them fit more spins into it.
